Right Counselling, Bright Career

Grade 11 & 12

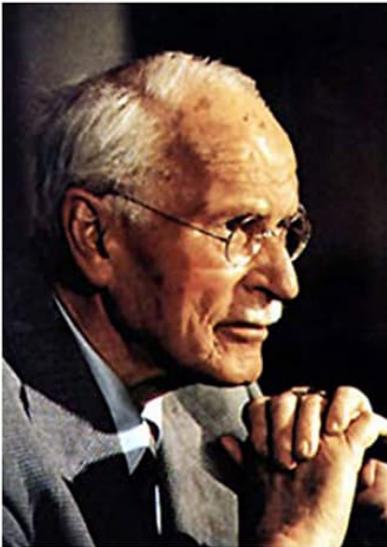

Pooja Sharma

[23/8/1978 - 23:53:18 - Delhi]

## Introduction

From the day of the establishment of CogniAstro, Founder Mr. Punit Pandey has made it his mission to always help people in taking the right decisions with the exact science of Astrology as his guide. CogniAstro is created to answer one of the most common questions that trouble people of all ages - career. Our career is an essential decision in life, and choosing the wrong one becomes not only a source of frustration but also impedes one's success.

The most crucial suggestion; "do what you like to do"; is not always helpful since it is not easy to know precisely what one wants, especially at a young age. People often resort to various psychological tests for the answer but mostly they cause more confusion than giving clear directions. Mr. Pandey has followed the research of famous Swiss psychologist & founder of analytical psychology, Dr. Carl Jung to come up with the perfect blend of psychology and astrology for one of the most concise models of personality analysis and career counselling report.

“Astrology represents the sum of all the psychological knowledge of antiquity”

~Dr. Carl Jung, Founder - Analytical Psychology

According to him, "In my 30 years of experience in this field, I have realized that Astrology gives much more specific directions than any other method like psychology-based tests. Dr. Carl Jung understood the importance of Astrology early on, but, unfortunately, no scientific research has followed Jung's early studies.

Following his research, I have developed a model which gives a much better insight into an individual's personality and cognitive abilities. Without understanding these aspects, it is impossible to help somebody with Career Counselling. I believe this is ground-breaking research, and our CogniAstro Career Counselling tools will be the most accurate tools in this area in the future. [sic]"

**Part 1: Personality Types Overview**  
Section 1.1: Understanding RIASEC Philosophy

## Section 1.1: Understanding RIASEC Philosophy

RIASEC refers to a theory of careers, specializes in 6 personality types it helps students make the right career decisions and RIASEC model is here to guide you for career planning. Here are the six personality types-

### Realistic

As a **Doer**, you like to work with "things". Practical and competitive, you approach problem solving "by doing something rather than sitting or thinking about it." Working on physical, outdoor and mechanical tasks interests you the most.

### Investigative

As a **Thinker**, you like to work with "information". Curious, analytical, and independent, you plan things with your "observation and understanding". Science, technology, theory, and information are your interest areas.

### Artistic

As a **Creator**, you like to work with "ideas". Imaginative, emotional, and impractical, you like to "explore different things and try new ways of experimenting it." Rebel against rules and structure, you prefer "creativity over orders".

## Social

As a Helper, you like to work with "people". Working in cooperative environments, you like to improve the lives of other people. Friendly, cooperative, and sociable, you build social connections with other people.

## Enterprising

As a Persuader, you like to work with "people and data". Energetic, ambitious and confident, you use your communication skills to persuade/lead others. You like working in positions of power to add value & reputation.

## Conventional

As an Organizer, you like to work with "data". Efficient, logical, and unimaginative, you like to manage data with precision and accuracy. You like structure and order and dislike unstructured or unclear work.

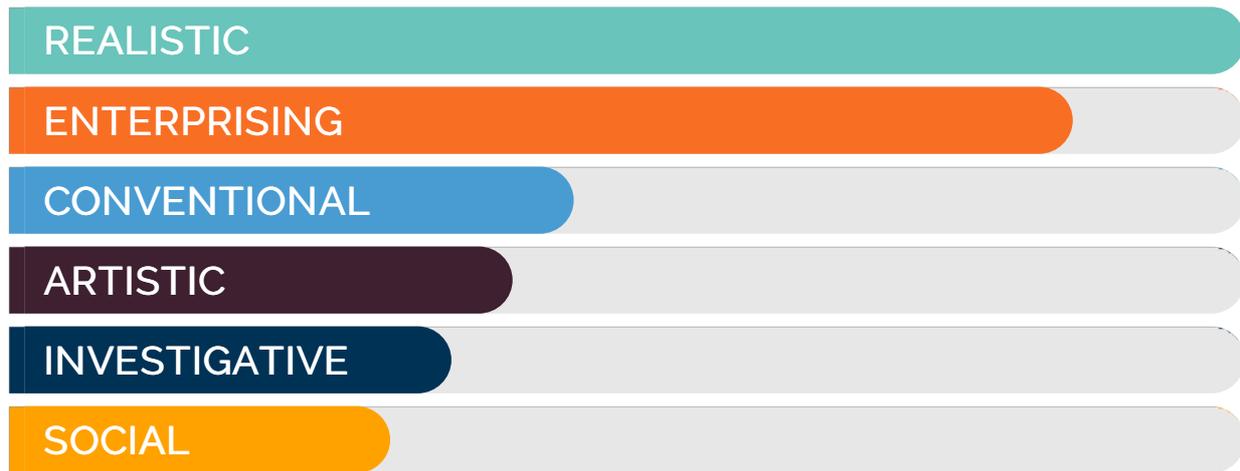

## Part 2: Your Individual Analysis Report

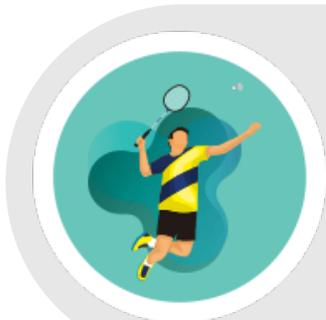

### Section 2.1: Personality Assessment Outcomes

## Section 2.1: Personality Assessment Outcomes

In the given section, CogniAstro Report shows you your Personality type in the descending order ranging from 'most preferred' to 'least recommended' for your career. So, choose your career based on your personality as follows:

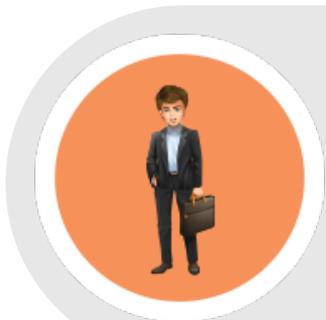

● Profession/ Career having these traits should be **RECOMMENDED**:

### REALISTIC

- You tend to be independent, practical and strong.
- You use your subject expertise to solve problems.
- You prefer activities that require skill & coordination.
- You like working with plants, animals, tools & mechanics.

### ENTERPRISING

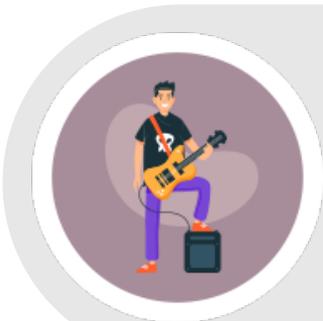

- You have the ability to convince others of your idea.
- You like to work in a competitive environment.
- You tend to be ambitious, persuasive & confident.
- You should possess leadership qualities.

- Profession/ Career having these traits should be AVOIDED:

## CONVENTIONAL

- People perform tasks in a detailed oriented manner.
- People follow a structured approach to solve problems.
- People work in an accurate & stable environment.
- People tend to be organized with an eye for next-big-thing.

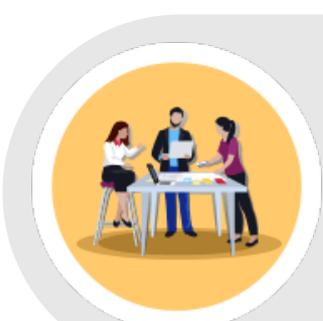

## ARTISTIC

- People prefer working in the field of arts.
- People are likely to excel in both arts and abstract thinking.
- People like to work in an unstructured environment.
- People are likely to be a creator & out-of-box thinker.

## INVESTIGATIVE

- People prefer experiments, research & intellectual query.
- People value logic & order, & also tend to innovate ideas.
- People tend to be thoughtful, intellectual and curious.
- People prefer ideas, concepts, science & technology.

## SOCIAL

- People like to help, heal or develop others.
- People like to lend a helping hand to those in need.
- People like to work in an energetic environment.
- People are friendly, cooperative, sociable & understanding.

## Part 3: Recommendations For You

Section 3.1: Career Clusters Recommendations

Section 3.2: Courses As Per Career  
Recommendations

## Section 3.1: Career Clusters Recommendations

Each career cluster defined below is the sum of similar career options, clubbed together. In the following section, we have specified clusters in descending order, according to their suitability for you. Working in any of the career families which is given near the top will prove to be more beneficial for you:

### 1. Infrastructure & Real Estate

The Infrastructure & Real Estate has the potential to change the face of the country. The careers in this clusters include purchase, reselling, architecture, design, and more of lands, plots, flats, houses and villas.

- Civil Engineer
- Real Estate Developer
- Architects

### 2. Production & Manufacturing

All technical and professional activities concerning processing of materials into intermediate or final products, including planning, managing, control, maintenance, and more, falls under the Production & Manufacturing Career Cluster.

- Production & Industrial Engineer
- Production Planner
- Materials Engineers

### 3. Transportation & Logistics

The career cluster, Transportation and Logistics entails movement of materials, goods, and people via different possible routes and the planning, management, and related professional support services like facility maintenance, transportation infrastructure planning, etc. connected with it.

- Airline/Commercial Pilots
- Ship Captains
- Astronauts

### 4. Financial Services

As clear from the name, the Financial Services Career Cluster incorporates all jobs pertaining to finance and economics. This includes banking, insurance, investment, business financial management, and so on. Individuals with great organizational and communication skills as well as a problem-solving aptitude, are best suited for these fields.

- Consumer/ Retail Banker, Stock Broker/ Trader
- Chartered Accountant, Insurance Executive
- Financial Analyst, Investment Banker

## 5. Legal Services

Working in the Legal Services Career Cluster entails ensuring that the Law and Public Safety structure of the nation remains intact by planning, managing, and providing public safety, protective services, legal services, and professional and technical support services.

- Civil Lawyer
- Corporate Lawyer
- Criminal Lawyer

## 6. Business & Consulting

The career options incorporated in the Business & Consulting Career Cluster includes all obligations required to run the business operations, efficiently and productively. This includes all administrative responsibilities as well as organizing, planning, directing, and evaluating business functions for the same.

- Entrepreneur
- Business Analyst
- Management Consultant

## 7. Marketing & Sales

The Marketing & Sales Career Cluster deals with marketing activities in order to attain an organization's objectives. The process includes planning, performing, and managing these activities, advertising and promoting products and services.

- Business Development / Growth Hacker
- Brand Manager, Digital Marketer
- Sales Manager

## 8. Defence, Civil & Agriculture

The Defence, Civil & Agriculture Career Cluster defines all government, whether state or central, and agricultural jobs in the country. This includes governmental functions at various levels such as national security and so on.

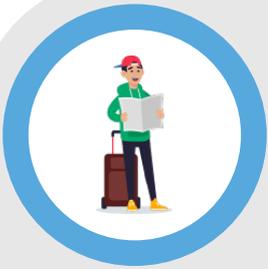

- Civil Services Officer / Forest Officer
- BSF/ Coast Guard Officer
- Airforce/ Navy/ Army Officer

## 9. Business Administration, Management & Operations

The career options incorporated in the Business Administration, Management & Operations Career Cluster includes all obligations required to run the business operations, efficiently and productively. This includes all administrative responsibilities as well as organizing, planning, directing, and evaluating business functions.

- Human Resources Manager, Supply Chain Manager
- General Manager, Operations Manager
- Finance Manager

## 10. Hospitality & Tourism

Working in the Hospitality and Tourism Career Cluster includes not only management, marketing, and operations of restaurants and other such services, but also any customer service, recreation, amusement, and attractions.

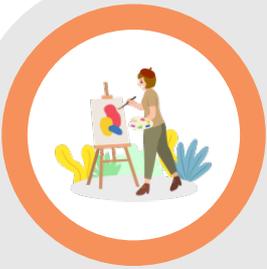

- Hotel Manager
- Travel Consultant
- Event Manager

## 11. Computer Applications

The career options in the cluster, Computer Applications, requires you to work with computers in designing, development, and managing of their software. Designing new computer equipment, developing, programming, testing, all fall in this ever-growing field.

- Software Tester / QA, Network Engineer
- Software Developer
- Application Programmer

## 12. Arts, Design & Literary

Working in the Arts, Design & Literary Career Cluster deal with the creation of books, magazines, newspaper, graphic designs, and more. It comprises of expression of one's thoughts and emotions through an assortment of media and methods.

- Content & Copy Writer
- Creative Designer, Fashion Designer, Interior Designer
- User Interface Designer, Game Designer/ Animator

### 13. Media & Entertainment

If you are creative and wish to let your imagination flow, then the Media & Entertainment Career Cluster is a good option for you. The career options under this family includes working on the writing, performing, and more, of creative and unique content.

- Media Presenter & Actor
- Film/ Documentary Maker
- Journalist & Author

### 14. Engineering & Technology

The Engineering & Technology Career Cluster, is best suited for those who successfully apply mathematics, science and technology concepts to solve problems quantitatively in engineering projects involving design, development or production in various technologies.

- Aeronautical Engineer, Mechanical Engineer
- Chemical Engineer, Electrical/ Electronics Engineer
- Biotechnologist

### 15. Social Sciences & Research

The Social Sciences & Research Career Cluster deals with the planning, research, development work, and more such professional and social services to help identify mysterious or unknown remains of all kinds. Working in this field entails planning, managing, and providing research and other services to police departments, universities, corporates, and museum settings.

- Psychologist, Sociologist/ Anthropologist
- Economist
- Historian/ Archaeologist

### 16. Pure Sciences & Research

The Pure Sciences & Research Career Cluster, deals with the scientific research and development work, laboratory and testing, and more such professional and technical services. Working in this field entails planning, managing, and providing scientific research and other services.

- Biologist, Forensic Scientist
- Geologist, Mathematician, Physicist
- Chemist, Statistician/ Actuary

## 17. Software & Digital Design

The career options in the cluster, Software & Digital Design, requires you to work with computers in designing and development of software, network systems, and more.

Designing new computer equipment or games, developing, programming, analyzing, all fall in this ever-growing field.

- Software Architect, Network Architect
- Data Scientist
- System Engineers

## 18. Community & Education

Working in the Community & Education sector includes providing education and training services to others, as well as all responsibilities concerning their planning, management, and

more related to family and community services, counseling, mental health services, and consumer services.

- Educator / Teacher / Professor
